HF most spip affectual and economical remody for diseases of the Human Constitution, the has ever been discovered

These Pills are composed entirely of acaterials ex-tracted from Medical Plants, and are warranted not o contain gur particle of mercury, or may mineral substance Dr. Kingley, the inventor of this valuable medicine, from his knowledge of the human system derived from a long and extensive practice. has arrived to the conclusion, That the great and primary came of most diseases is a derangement in the functions of the liver; or in dilier worth as in-

creased or diminished secretion of the Bile. Bo wall is this understood, that it is common for hereta to any when they teel unwell that they are Billious, meaning that they have too much bife in the stomach. Un the other hand, when the flow of bile is diminished, the process of digestion is imperfectly performed, the pattent becomes week and emaciated, because nontithment equitions in the food taken inte the stomach is not projectly eleracted; and the food is viected in a crude state. Dr. Kingley is confidea. there he famous Hygenn Pheory, so called that fimblifly of the blood is the cause of all diseases." a a great Abstrally. Freely one who remain upon the publicit a proment, will perceive that finguity of the blood is a secondary, not a primary complaint. the effect, and not the cause of the disease. . When the functions of the hoes are delanged, and have a of bile increased is often taken up by the enector wines wingled with the blowl as is danned so when he patient shows it in his countenshee. Now this

impurity of the blood is caused by an increased flow of the bile, and to membedy it you must confress the secretics of the liverand restore it to a heatthy state, Dr. Kingley has spent much time in experimenting with different vegetable medicines, for diseases of the liver and now offers his Universal Family Pills as the best, most convenient and cheapest medicine that can be prepared for general use; and n offering them to the public, he is actuated more

by benevotent than peruntary motives, as the price of the prediction will show. Dr. Fingley flatters himself-that his long expeti menting with vegetable medicines has enabled him to discover the time and only substitute answering all the purpose of mercurials, without any of their attendant evils One great quality of his founly Pills is, that they have the alterative principle combined with their cathartie or operative quality, to that they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate the circulation, and give tone and energy to the nervous system.

"They are unid and pleasantin their operation, and almost immediate conviction of their wility from the first dose. They can be taken with skiety the persous of any age, and the fueble, the infirm, the nervous, the delicate, are strengthened by their operation, because they clear the system of bad humors, quiet nervous irritabilities and restlessness, from wiratever source, and invariably produce sound sieep.

The Family Pills are an invariable remedy for aundice, sick and nervous headache, dyspepsia, comiveness, sickness of the stomach, hearthorn, all ulious complaints, levers of all kinds, and it taken at the commencement will invariably check their progress, and save the patient from a protracted and dailgerais architect. Lifey are invariance in nervous and hypochondriacal affectious, toss of appetite, and all complaints to which females, alone are subject. They operate as a mild and speedy purge, and are a sale and certain remedy for worms children:

I might publish a small volume of certificates but. consider it unnecessary, as the medicine will recom-mend itself to all who will make trial of it TOHN KINGLEY,
